 - AI sidebar panel
-

6. Version Control System (Git-Style)

◆ 6.1 Version Features

- Manual snapshots
 - Custom version labels
 - Version timeline
 - Version preview
 - Restore version
-

◆ 6.2 Version UI

- Right sidebar timeline
 - Version cards
 - Restore button
 - Diff indicators (optional)
-

7. Collaboration System

◆ 7.1 Roles

- Owner (full control)
- Editor (edit access)
- Viewer (read-only)

◆ 7.2 Features

- Share via email
- Share via link
- Permission control
- Real-time presence (future)
- Collaborator avatars

◆ 7.3 Viewer Tracking

- Who viewed the document
- View timestamps
- View count

8. Security System

◆ 8.1 Data Security

- Encrypted storage
- Secure APIs (JWT)

◆ 8.2 Item-Level Security

- Lock document with password
- Lock group with password
- Unlock UI flow

◆ 8.3 Visibility Control

- Private
- Shared
- Public link

9. Smart Bin System

♦ 9.1 Features

- Soft delete
- 30-day retention
- Restore item
- Permanent delete

♦ 9.2 UI

- Deleted items list
 - Countdown (days remaining)
 - Bulk actions
-

10. Activity Tracking System

♦ 10.1 Activity Log

Tracks:

- Document edits
- Sharing events
- Version creation
- Version restore
- Deletes

♦ 10.2 UI

- Timeline view
 - Filter by type
 - Group by date
-

11. Search System

♦ 11.1 Global Search

- Search by:
 - Title
 - Content
 - Tags
 - Groups
 - Users
-

♦ 11.2 UI

- Command palette (Cmd + K)
 - Instant search results
 - Highlight matches
-

12. Favorites & Pinned

- Mark notes/groups as favorite
 - Quick access section
 - Priority filtering
-

13. Reminder System

- Set reminder for document
 - Date & time picker
 - Notification trigger
 - Reminder list
-

14. Friends System

- Add frequent collaborators
 - Quick share access
 - Friend directory
-

15. Export & Download

- Export formats:
 - PDF
 - Markdown
 - TXT
 - Download UI modal
-

16. UI/UX Features

♦ 16.1 Design

- Minimalist UI
 - Glassmorphism
 - Dark mode
 - Card-based layout
-

♦ 16.2 Interaction

- Smooth animations
 - Hover states
 - Micro-interactions
 - Keyboard shortcuts
-

♦ 16.3 Responsiveness

- Desktop layout
- Tablet optimization
- Mobile drawer navigation

17. System Features

- Autosave
- Offline handling (future)
- Loading skeletons
- Toast notifications
- Error handling UI

18. Advanced Future Features

- Real-time collaboration (Google Docs style)
- Comments & mentions (@user)
- Knowledge graph (like Obsidian)
- AI chat with notes
- Smart backlinks
- Document relationships
